Paul Doyle
Petroleum Marine Consultants
13833 Wellington Trace, E4 207
Wellington, FL 33414

Dear Paul:

As president of the Petroleum Equipment Institute, I would like to thank you for volunteering to serve the association and officially appoint you as chairman of the new PEI Marina Fueling System Installation Committee in 2008. Attached, for your information, is a committee roster.

PEI staff member Bob Young will be serving as the project manager and will be contacting you in the near future regarding the publication schedule and committee chairman responsibilities. You can expect to serve as the leader for a couple of conference calls and at least three, two-day meetings within the next 12-18 months. I understand from Bob that the publication release date is scheduled for late 2009.

Marcel Moreau of Marcel Moreau Associates has been retained as the consultant to the committee. Marcel brings with him many years of experience serving as consultant to most of the PEI RP committees. Bob has mentioned your offer to assist Marcel and the committee on this project. Thank you for your interest in participating on this committee and serving as chairman of the group.

Please feel free to contact Bob Young at PEI if you have questions or need further information.

Sincerely,

A handwritten signature in black ink that reads "Bruce F. Larson". The signature is written in a cursive style.

Bruce Larson
